Sir:

Please amend the above-identified application as follows:

IN THE CLAIMS:

Please cancel claims 1-31 and add new claims 32-37 as follows:

Sub B39 32. (New) A broadcast data receiving device for receiving and outputting broadcast data including a plurality of multimedia data, said data device comprising:

A_i a receiving unit operable to sequentially receive the plurality of multimedia data included in the broadcast data;

an outputting unit operable to output the received multimedia data;

a storing unit operable to create and store management information for collectively managing the plurality of received multimedia data and attribute information corresponding to respective multimedia data; and

a managing unit operable to manage the received multimedia data with reference to the management information.
